**TEAM SCENARIO**

## Scenario 5 - "Ka-boom"

## Background Scenario

You and your team are Providing First Aid Services at the major sporting event. It is the end of another event filled day and your crew has been assigned the post at the main arena. It is a bright and sunny day and you are enjoying the events. Suddenly you hear a loud rumble from inside the halls of the grandstand and people are running out towards you saying there was an explosion in a locker room.

You have 20 minutes to complete the scenario, Good Luck!!

There will be a 3 minute warning signify the end of the primary survey.

There will also be a 2 minute left signal for the team's benefit.

## THIS PAGE IS GIVEN TO TEAMS AT THE BEGINNING OF THE SCENARIO

## CASUALTY SIMULATORS INFORMATION Scenario : "Ka-boom"

***(BACKGROUND – NOT TO BE SHARED WITH COMPETITORS)***

Total Patients: 2 dressed in Athletic Clothing - Location: Locker room.

In the locker room, 2 athletes are getting ready for their events when one hears a ticking noise and then a sudden explosion from one of the lockers. Both athletes sustain major trauma.

(1) Large laceration across the stomach from shrapnel with major organs protruding severely, amputation of left hand with severe bleed (arterial/ spurting)

(2) 1st and 2nd degree burns on face, arms and chest (Singed clothing.) embedded metal x8 shrapnel in right arm and side, hearing loss/ringing in ears.

**NOTE:**

- There will be a 3 minute warning to the judges to signify the end of the primary survey.
- There will also be a 2 minute remaining signal for the team's benefit.

**PROPS (Per Scenario/Team)**

- 2 Casualties in athletic clothing preferably singed and cut appropriately for injury
- black soot to spread on lockers and floor
- shrapnel (metal, screws, wire pieces spread on floor and in wounds)
- fake detonation device singed/ black with smoke to be on the floor between patients.
- Amputated LEFT hand – 1 missing hand per scenario.
- Blood pool on floor and enough to pump out stump until controlled by team.
- Case of water or eye wash station on wall nearby for water source for burnt patient
- IF POSSIBLE (source: fire department) electronic fire simulator OR fake fire simulated to have teams "put out"
- Electronic fire extinguishers OR fire extinguishers for crew to "put out a small fire" with.
- PCRs (SFA & MFR)
- First aid kit (SFA and MFR)
- Blankets x2 (SFA & MFR)
- Oxygen Kit & Masks (MFR Only)

## CASUALTY SIMULATORS INFORMATION ~ "Ka-Boom"

### Casualty 1 –Amputated Arm/ Abdo Wounds:

**(**Laying on back, on the floor screaming in pain, hand nearby.)

| Information | Casualty Simulation Required |
|---|---|
| • Conscious Patient laying on their back | • Patient is experiencing SEVERE pain – screaming/crying out |
| • Amputated LEFT hand at the wrist with severe bleeding. | • Hand covered in stocking with simulation over. Squirting blood from end of stump (use de-lee bulb pump in same hand) |
| • Large 6" Laceration across stomach with hanging piece of intestine | • Large LAC with moderate bleeding, (Use non-latex condom with red/soaked tissue inside for intestines.) |
| • Shock | • pale, cool, sweaty skin |

**HISTORY:**

- You were getting ready for your event here in the locker room when you heard a ticking noise in one of the lockers and you went to investigate with another athlete. Suddenly the locker door exploded and you felt sudden pain in your arm and stomach and are now on the ground.
- You are surprised by the events, repeating "What happened?" and you are in disbelief over the events.

VITAL SIGNS:

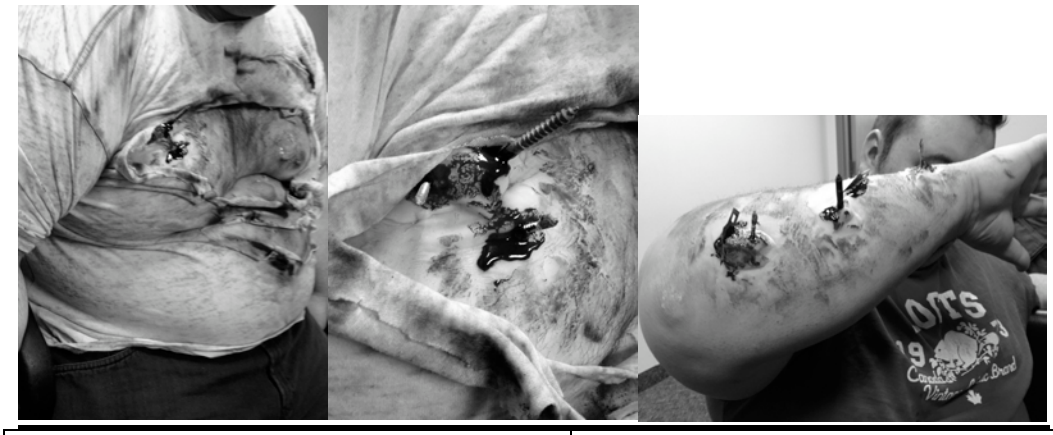
| | 1st SET | 2nd SET |
|---|---|---|
| **RESP.** | 26 laboured | 24 laboured |
| **PULSE** | 90 rapid, regular | 94 rapid, regular |
| **BP** | 108/64 | 112/70 |
| **SKIN** | Pale, cool, clammy | Pale, cool, clammy |
| **LOC** | Conscious | Conscious |
| **PUPILS** | Equal & Reactive | Equal & Reactive |

SAMPLE:

**Allergies:** None
**Medications:** None
**Past Medical History:** None
**Last meal:** 2 hours ago

## CASUALTY SIMULATORS INFORMATION ~ "Ka-Boom"

**Casualty 2 – Burned Patient:**(Laying on back closest to the exploded locker)



| Information | Casualty Simulation Required |
|---|---|
| • 1st and 2nd degree burns to full face, chest and arms | • Red and blisters covering entire space indicated.<br>• Singed shirt on the front panel. |
| • 8 Pieces of metal shrapnel (broken metal AND screws/Nails) embedded in RIGHT arm and side. (5 in forearm back and 3 in ribs and side from turning away) | • Imagine the casualty raised arm to cover face and where the metal pieces would have embedded themselves.<br>• Minor bleeding from all sites. |
| • Shock | • pale, cold, sweaty. |

**HISTORY:**

- You were getting ready for your event here in the locker room when you heard a ticking noise in one of the lockers and you went to investigate with another athlete. Suddenly the locker door exploded and you felt the heat come and hit you like a brick wall.
- It hurts to breathe, you can't take a deep breath.
- You are surprised by the events, repeating "What happened?" and you are in disbelief over the events.

**VITAL SIGNS:**

| | 1st SET | 2nd SET |
|---|---|---|
| **RESP.** | 12 laboured | 12 laboured |
| **PULSE** | 118 Strong and Rapid | 110 strong and Regular |
| **BP** | 134/96 | 144/100 |
| **SKIN** | Pale, cool, clammy | Pale, cool, clammy |
| **LOC** | Conscious | Conscious |
| **PUPILS** | Equal and Reactive | Equal and Reactive |

SAMPLE:
**Allergies:**None
**Medications:**Vitamins
**Past Medical History:**None
**Last meal:**2 hours ago
